Attention: Rahman Rousta

Dear Sir:

This is in reference to your abbreviated new drug application (ANDA) dated January 15, 2008, submitted pursuant to section 505(j) of the Federal Food, Drug, and Cosmetic Act (the Act), for Ampicillin for Injection USP, 250 mg/vial, 500 mg/vial, 1 g/vial, and 2 g/vial.

Reference is also made to your amendments dated March 6, April 14, May 15, June 10, June 15, July 10, August 24, October 14, October 27, November 9, and December 22, 2009.

We have completed the review of this ANDA and have concluded that adequate information has been presented to demonstrate that the drug is safe and effective for use as recommended in the submitted labeling. Accordingly the ANDA is approved, effective on the date of this letter. The Division of Bioequivalence has determined your Ampicillin for Injection USP, 250 mg/vial, 500 mg/vial, 1 g/vial, and 2 g/vial, to be bioequivalent and, therefore, therapeutically equivalent to the reference listed drug, Ampicillin for Injection USP, 250 mg/vial, 500 mg/vial, 1 g/vial, and 2 g/vial, respectively, of Sandoz Inc.

Under section 506A of the Act, certain changes in the conditions described in this ANDA require an approved supplemental application before the change may be made.

We note that if FDA requires a Risk Evaluation & Mitigation Strategy (REMS) for a listed drug, an ANDA citing that listed drug also will be required to have a REMS, See 505-1(i).

Postmarketing reporting requirements for this ANDA are set forth in 21 CFR 314.80-81 and 314.98. The Office of Generic Drugs should be advised of any change in the marketing status of this drug.

Promotional materials may be submitted to FDA for comment prior to publication or dissemination. Please note that these submissions are voluntary. If you desire comments on proposed launch promotional materials with respect to compliance with applicable regulatory requirements, we recommend you submit, in draft or mock-up form, two copies of both the promotional materials and package insert directly to:

Food and Drug Administration  
Center for Drug Evaluation and Research  
Division of Drug Marketing, Advertising, and Communications
