

At the end of 2008, Antibiotice earned a gross profit of 13.3 million lei and a turnover of 215.8 million lei, comparable to that achieved in 2007. Majority share in turnover was held by domestic sales. This way Antibiotice company maintained itself on the ninth place on the top of the first ten pharmaceutical manufacturers in the Romanian market.

A major goal of 2008 was the development of business on the international markets. Thus, exports accounted for 12% of total turnover, compared to 8% in 2007.

Complex medicine manufacturer, with a portfolio that no longer focuses exclusively on anti-infectives, Antibiotice produces quality, safe and effective generics, viable alternatives of innovative medicines.

The company manufactures 120 medicines belonging to the anti-infectives, cardiovascular, digestive tract and central nervous system classes that are used in the treatment of a wide range of diseases.
